

Part-Time Optical Lab Technician

The quality of our products is of paramount importance to us. We are seeking a friendly, outgoing, experienced, intelligent, and energetic individual who has a strong desire to improve people's lives to help us with our goal.

This opportunity is an entry-level position, but experience is a plus. You will be trained in all aspects needed to assist with our optical laboratory operations. Some duties will include: receiving and sorting orders from our vendors, operation of machinery to manufacture and verify spectacle orders, entering information into our database, and tracking orders to verify prompt delivery of products to our patients

The ideal candidates will:

- Possess excellent customer service and communication skills.
- Be mechanically inclined and able to multi-task.
- Be detail oriented.
- Be a reliable, team-oriented player.
- Be well spoken with a professional appearance.
- Be able to work without supervision.

The position is a part-time position offering 20-25 hrs/week (half days). The schedule of the position can/will include Saturdays and late shifts on Thursdays. The position starts at \$13.00/hr with additional benefits (ie. 401k with company match).
